And Turken

Researcher at Self Employed
San Francisco Bay Area

Experience

Self Employed
Researcher
March 2020 - Present (1 month)
San Francisco Bay Area

U.S. Department of Veterans Affairs
Research Health Scientist
February 2009 - March 2019 (10 years 2 months)
Martinez, California, United States

Conducted medical research, as a Principal Investigator, on federally funded project on how brain injury affects cognitive abilities.

Department of Veterans Affairs, Medical Research
Project Scientist
January 2006 - February 2009 (3 years 2 months)
East Bay Institute for Research and Education, VA North Cal. Health Care System

Conducted clinical research on the effects stroke, traumatic brain injury and post-traumatic stress disorder on cognitive abilities, brain anatomy and brain function, using neurocognitive assessments, MRI brain imaging and cognitive electrophysiology techniques.

Stanford University
Postdoctoral Research Fellow
January 2003 - December 2006 (4 years)
Stanford, CA

Conducted structural and functional brain imaging research at Stanford Psychology Department, focusing on the neural correlates of controlled cognition and interindividual differences in cognitive abilities

Stanford University School of Medicine
Research Fellowship
December 2000 - November 2002 (2 years)
Stanford, CA

Conducted neuropsychiatry research on cognitive disorders in schizophrenia, using computerized neurobehavioral assessments and electrophysiological (EEG) measurements

Education

UC Santa Barbara

Doctor of Philosophy - PhD, Cognitive Psychology · (1995 - 2000)

The University of Edinburgh

Master of Science - MS, Cognitive Science · (1993 - 1994)

Bilkent University

Bachelor of Science - BS, Electrical and Electronics
Engineering · (1987 - 1991)
